THE PROPOSED PUBLIC LIBRARY. The Secretary of the Public Library Committee has sent us the following:-In July last some 800 volumes, the nucleus of a library, were placed at the Committee's disposal to deal with as seemed to them best. The want of a public ! library in the colony had been strongly impressed | | Brick & Coment. upon the Committee, and that there was a real H. & C. And what master to such an extent as not only to point is the present library accommodation in Hongkoug ? The clubs have libraries, but the use of these is confined of course to their members." The City Hall Library contains upward of 5,000 volumes, but us it has practically no work of later date than 1865, and as its trustees have no fonds His Lordship-Are you not assuming that to spend on books, it has necessarily become som what antiquated. His Excellency the Governor was communicated with on the subject, and gave the Committee, as he has throughout, his cordial support. The first point to be settled was the name: and many suggestions having been considered. the title "Hongkong Public Library" was provisionally adopted, as best explaining the scope of the institution. Then came the question of foundation. The library might without trouble and at little expense be registered under the Companies' Act; but this would give it neither sufficient public character nor the status best calculated to, enlist general interest and

For these reasons it was decided to seek incorporation, and a draft rdinance was prepared, which was ultimately approved by the late Acting Attorney-Goneral. It is proposed to vest the property of the Library in a Board of pointed by the Governor, six being elected by
